Cited by 91 DAFStb. Heft 595. Pdf download. Language: German. Full Article. Publisher: DAFStb - Deutsches Archiv für Stahlbetontechnik. Abstract. Unstrengthened panel of steel-concrete composite beams was reinforced with aluminium FRP. The yield and ultimate strength were measured according to the American prestress standard in shear and compression. The standard was applied to the tests in parallel direction and to the tests in the longitudinal direction. The results in both cases were comparable. FD. + 49 30 2601-1263.
