#### What's New in the Simple Shop?

Simple Shop is a comprehensive tool, designed to help business owners keep track of their finances, manage stocks, employees and customers, as well as generate invoices and export data to various formats. In addition to the aforementioned features, it offers a VAT calculator, credit card validator, label printer, diagram designer, barcode generator, encryptor, password generator and many more. These tools allow you to complete various types of activities, without needing to resort to installing multiple other applications. You can add products, employees and customers, as well as specify their status, country, VAT and many other characteristics. This enables you to categorize and organize your data. Invoices can be automatically generated and sent to various recipients, including e-mail and instant messaging. You can also export invoices to CSV, XML or HTML files. Simple Shop is also a POS application, allowing you to monitor your sales, credits and returns. The application can also generate graphs of these values. You can keep track of your most popular customers, sales figures, date of orders, number of receipts and how much is owed to suppliers and taxes.
